

Report on Mentor Counseling

for submission to the examination board of the Master program Biomedical Engineering an Medical Physics

Student (Matrikel)	
Mentor	

Mentor and student had an in-depth consultation and agreed on the following course outline for the advanced studies during the first year of the Master program.

Mandatory modules	CP
PH2001 Biomedical Physics 1	5
PH2002 Biomedical Physics 2	5

Biomedical Physics 1 and Biomedical Physics 2 are regularly offered both in winter and summer semesters. At least one of the two exams need to be passed at the end of the second semester.

Modules from the focus areas of 40 CP in total	CP

The modules must be included in the catalog for the focus areas issued by the examination board. Only the examination board may decide on the inclusion of additional modules.

General-education subjects of 4 CP in total	CP

General-education subjects may be selected from the general-education catalog for the Physics programs. Apart from classical "Soft Skills" regularly all modules from humanities and social sciences can be included into the catalog. Modules where similar content is already part of the curriculum cannot be included (e. g. modules from the neighboring sciences (Mathematics, Chemistry, Engineering, ...)).

PH1032 Biomedical Engineering and Medical Physics Lab Course	CP
	6

The lab has to be chosen from the currently offered lab experiments within PH1032.
